Career Objective

Motivated Information Science Engineering student seeking opportunities to apply programming and web development skills to build secure and scalable applications. Interested in full-stack development and cybersecurity, with a focus on developing efficient and user-centered software solutions.

Education

- **NMAM Institute of Technology, Nitte** 2024–2028
B.E. Information Science and Engineering
- **Excellent Pre-University College, Sunnari** 2022–2024
Karnataka State Board

Technical Skills

- **Languages:** Python, JavaScript
- **Web Technologies:** HTML, CSS
- **Frameworks:** Flask
- **Databases:** MySQL
- **Tools:** Git, GitHub
- **Other:** UI/UX Design, Full Stack Development

Projects

Vaultary – Secure Password Manager

(HTML, CSS, JavaScript)

- Developed a browser-based password manager for securely storing and managing credentials.
- Implemented client-side credential storage and retrieval functionality.
- Designed a responsive and user-friendly interface with security-focused interaction.

Academic Interests

Full Stack Development, Cybersecurity, Scalable Web Systems, System Design

Certifications

- **Applied AI Challenge**
Completed a challenge focused on practical artificial intelligence problem solving and AI model applications.
- **Innovation Expert**
Certification covering innovation thinking, problem solving, and technology-driven solution development.

Achievements & Activities

Smart India Hackathon (SIH) Participant

- Collaborated in a team of six to design a technology solution aimed at improving farmer productivity.
- ### Workshop – Foundations of Cryptography
- Attended a workshop covering encryption fundamentals and secure communication.
